SUBJECT INDEX TO VOLUME 41

PAGE

Alfalfa seed fields, Chemical control of *Liocoris* spp., *Adelphocoris* spp. and *Plagiognathus medicagus* Arrand (Hemiptera: Miridae) in northern ... 166
Alfalfa, Effect of date and frequency of defoliation on yield and quality of ... 188
Alfalfa, Association of fall growth habit and winter wheat survival in ... 244
Alfalfa and red clover plants derived from hard seeds and seeds of different sizes, The growth characteristics of ... 675
Alfalfa grown on sulphur-deficient and sulphur-sufficient Grey Wooded soils, Effect of sulphur treatments on yield and nitrogen and sulphur content of ... 709
Amelanchier alnifolia, The vegetative propagation of ... 728
Apple rootstock selections relating respiration rates to an anatomical method of predicting dwarfness, Studies on ... 221
Apple trees, Relationship between certain methods and procedures of testing for winter injury of outdoor exposed shoots and roots of ... 309
Apple aphid on dwarf apple trees with bark applications of dimethoate, The control of the ... 407
Apple aphid, *Aphis pomi* DeG., on samples of apple foliage, A volumetric method for the determination of numbers of ... 442

Bacillus thuringiensis Berliner and DDT for control of two pests of cabbage, Field tests with ... 428
Barley autotetraploids, Fertility of. II. The relationship of aneuploidy, dwarfing and fertility in four autotetraploid barley varieties ... 124
Barley, Palliser ... 440
Barley, The effect of stage of development and variety on damage to, by the corn leaf aphid, *Rhopalosiphum maidis* Fitch ... 866
Barley and other cereals, A new mite disease of ... 871
Barley, Keystone, a loose smut resistant feed ... 874
Begonia in Canada, Control of powdery mildew on tuberous ... 227
Birdsfoot trefoil (*Lotus corniculatus*), Flower, pod and seed development relative to the timing of the seed harvest of Viking ... 523
Blight of lowbush blueberry and its control, *Monilinia* twig and blossom ... 336
Brittleness in barley, Awn ... 759
Browning in cauliflower, Non-enzymatic ... 377

Clover seed midge, *Dasyneura leguminicola* (Lint.) (Diptera: Cecidomyiidae), in seed fields, Effects of time of harvest of the first crop of red clover on infestations of the ... 20
Common lowbush blueberry, *Vaccinium angustifolium* Ait., Male-sterility in the ... 865
Constant soil temperatures and soil moistures, Apparatus for maintaining, used in studies on soil-inhabiting insects and diseases ... 876
Corm rot of gladiolus in Canada, Corm treatments for the control of Curvularia ... 268
Corn yield trials, Effect of incomplete hills and compensating treatments in comparative ... 91

Dispenser, A mechanical seed, for rod-row plots ... 444

Evaporation from a free-water surface as influenced by exposure, Rate of ... 199
Evapotranspiration at Kapuskasing, Ontario ... 563

Flax, Aster yellows resistance in ... 316
Flax varieties, Fatty acid composition ... 814
Flax, The response of Raja and Redwing, to temperature and to supplementary incandescent light in growth chambers ... 818
Forage seedlings as affected by nitrogen fertilization, Yield and nitrogen uptake of ... 176
Forage species on dikeland and upland to various clipping intensities, Response of certain ... 693

Flax varieties, Fatty acid composition ... 814
Flax, The response of Raja and Redwing, to temperature and to supplementary incandescent light in growth chambers ... 818
Forage seedlings as affected by nitrogen fertilization, Yield and nitrogen uptake of ... 176
Forage species on dikeland and upland to various clipping intensities, Response of certain ... 693

PAGE

Forage crops, Plant chromogens as an indicator in estimating the digestibility of, by sheep ... 732
Forages ensiled with sodium metabisulphite at varying levels of compaction and dry matter, Nutrient preservation and acceptability of ... 720
Freezing, artificial, of 1-year-old shoots of apple varieties ... 381

Grass viruses, Differential hosts and new host records for five ... 211
Grass-alfalfa mixture compared with cereal grains for fodder production under semi-arid conditions, A ... 799
Grasses in the greenhouse, Seed production of perennial ... 1
Grasses, Clipping frequency and fertilizer effects on productivity and longevity of five ... 97
Grasses, Comparison of, for dryland turf ... 602
Greenhouse technique for crossing legumes by honey bees, A ... 679

Herbicide 2-chloro-4, 6-bis (ethylamino)-s-triazine (Simazine), Penetration of and persistence in soil of the ... 252

Inoculum of the alfalfa black stem fungus, *Ascochyta imperfecta* Pk., A method of producing and storing ... 447
Insect toxicants on the physiology of potatoes, carrots and radish, Some effects of four chlorinated polycyclic ... 578

Leafhopper, six-spotted, *Macrosteles fascifrons* (Stål.), and aster yellows in Manitoba ... 320
Leafhopper, six-spotted, *Macrosteles fascifrons* (Stål.), in Manitoba, The occurrence of two parasites of the ... 453
Lettuce, radishes and potatoes, Influence of potassium sprays on foliar necrosis and yields of romaine ... 272
Lycopersicon esculentum Mill., The pedigree of varieties of ... 371

Oat-stem rust in Canada from 1944 to 1959, Physiologic specialization in ... 153
Oat, Wild, control by delayed seeding of wheat ... 685
Oats, The effect of swathing at different stages of maturity on the bushel weight and yield of ... 401
Oats, Russell ... 683
Oats, Yield-maturity relationships in ... 763
Oil plants, Species trials with. I. Crambe ... 716
Orchardgrass (*Dactylis glomerata* L.), subjected to a silage-pasture type of utilization, An evaluation of varietal characteristics ... 653
Organic acids in silage as determined by gas chromatography, The ... 507

Pasture mixtures under grazing by sheep, Performance of four irrigated ... 533
Pasture species, Effects of clipping and nitrogen on competition between three ... 631
Pastures on a heavy-textured soil in northern Alberta, Studies with fertilized ... 261
Pea aphid, *Acyrthosiphon pisum* (Harris), caged on broad bean, *Vicia faba* L., Effects of Amitrole, Zytron and other herbicides or plant growth regulators on the ... 413
Pea, The Creamette field ... 872
Petal blight, a new disease of the canna "Pfitzer's Dwarf" ... 503
Plant species at Ottawa, Ontario, and an examination of the influence of air temperatures, Phenology of several ... 643
Pollen sampler, A new continuous ... 849
Pollination on fruit set of the lowbush blueberry, The influence of honeybee ... 332
Potato, Verticillium wilt of, in relation to vascular infection of the tuber ... 703

Radiation on stored onions, Some effects of gamma ... 805
Range grasses, Some factors affecting germination, emergence, and early growth of three ... 59
Range, Comparison of lightly grazed and ungrazed, in the fescue grassland of southwestern Alberta ... 615

PAGE

Rape plants with seed oil free from erucic acid, The isolation of 218
Rapeseed, Varietal and environmental effects on. III. Fatty acid composition of 1958 varietal tests 204
Raspberry varieties in Nova Scotia, Progeny performance of seven red 466
Red clover and snapdragon, The influence of calcium and magnesium supply on nectar production in 50
Red clover (*Trifolium pratense* L.), The control of growth and development in. IV. Vegetative propagation 836
Rot of field corn in southwestern Ontario, Root and stalk. II. Development of the disease and isolation of organisms 854
Rust resistance, The inheritance of. VI. The transfer of stem rust resistance from *Agropyron elongatum* to common wheat 109
VII. The inheritance of resistance to races 15B and 56 of stem rust in eleven common wheat varieties of diverse origin 587

Safflower (*Carthamus sinctorius* L.), Honeybee activity on 559
Sawdust, straw, compost and manure, The effect of, on the yield and chemical composition of strawberries and on soil moisture, acidity and organic matter content 42
Seedling sugar-beet stands, The reduction of, by heptachlor-impregnated fertilizer 16
Sequential sampling in embryo tests for loose smut in barley seed, The use of 772
Sheaf drier, A portable 452
Sliced cucumber pickles, A vacuum method for preparing 454
Snow mould of grasses and alfalfa in Alberta, Chemical control of 744
Speckled leaf blotch, *Septoria passerinii* Sacc., on the yield and malting quality of barley, Effect of 431
Spray residues of Guthion and Sevin on apple leaves, The effect of rain, and sprinkler irrigation, on the persistence of 449
Sprayer, A new compact orchard concentrate 277
Spreader, An increasing-rate fertilizer 862
Strawberry progenies, Powdery mildew resistance in 239
Swede, Chignecto 880
Sweet cherry (*Prunus avium* L.) pollen *in vitro* as influenced by fungicides, Germination of 740
Sweet clover (*Melilotus alba* Desr.), Effects of sulphur and nitrogen fertilization, and inoculation with *Rhizobium meliloti* on the growth of 81
Sweet corn for eating quality in early generations of inbreeding, Selecting 438

Thrips *Frankliniella vaccinii* Morgan and *Taeniothrips vaccinophilus* Hood on the low-bush blueberry, Field tests of insecticides against the 134
Timothy, *Phleum pratense* L., Row width and seeding rate in relation to seed production in 549
Tobacco, The effect of maleic hydrazide on certain chemical constituents of flue-cured 170
Tobacco, The effect of chlorine on the hygroscopicity of flue-cured 195
Tobacco in Ontario, Influence of sprinkler irrigation on the incidence of weather fleck on flue-cured 281
Tobacco sucker growth inhibitor, Bismaleamic acid as a 672
Tobacco under forced air conditions, Effects of temperature on yellowing of flue-cured 780
Tomato response to mulching on ridged and flat rows, Studies of 10
Tomato fruit size and maturity, Improvement of, by backcross breeding 24
Tomato crop, A meteorological method of calculating the irrigation requirement of the canning 31
Tongs, holder-lifter, for harvesting forage rows 687
Toxicity in potato, The effect of some amino acids on manganese 436
Treater for small seed samples, A chemical 868
Tuber flea beetle, *Epitrix tuberis* (Gent.), in the interior of British Columbia, The persistence of certain soil insecticides for control of the 664

PAGE

Vegetable crops, A study of the effects of temperature and other factors upon the germination of. IV. Root crops 360
Venturia inaequalis (Cke.) Wint., Variation in the sensitivity of isolates of, to fungicides 499
Vernalization, Acceleration of seed maturity in slow-bolting lettuce by 394
Verticillium albo-atrum from potato, Variability within isolates of 487
Virus, Host range studies of the little cherry disease 544
Viruses in Ontario, Eriophyid mites in relation to the spread of grass 304

Wheat grown in southern Alberta, Effect of date of seeding on winter survival, yield, and bushel weight of winter 71
Wheat, The seed value of frost-damaged, as determined by its commercial grade, bushel weight and seedling development 137
Wheat, Piebald or yellow-berry in Saunders 217
Wheat, The influence of a commercial fertilizer treatment on weed competition in spring sown 231
Wheat, oat and barley seed, Effect of a high water content in stored, on its germinability, susceptibility to invasion by moulds, and response to chemical treatment 288
Wheat, The inheritance of leaf rust resistance in seven varieties of common 342
Wheat grown under controlled conditions, The influence of the ratio of incandescent to fluorescent light on the flowering response of Marquis 418
Wheat, Sawfly resistance in. IV. Some effects of light intensity on resistance 457
Wheat, Crop rotations and common rootrot in 479
Wheat and barley, Inherent differences in depth of crown in 493
Wheat, Studies on the control of dwarf bunt in winter 568
Wheat cross, Inheritance of quality as related to agronomic characters in advanced lines of spring 607
Wheat, Induction of seed set in dwarf-spring and winter 623
Wheat leaves, Chemical changes occurring in freeze-dried and fresh-frozen, during storage 689
Wheat, oats and barley, The influence of seeding rate on the yield and the yield components of 751
Wheat seedlings, Effects of inoculating, with *Helminthosporium sativum* and spread of the fungus to an external substrate 791
Wheats, Comparison of tissues from solid and hollow-stemmed, during growth. I. Dry matter and nitrogen contents of pith and wall and their relation to sawfly resistance 469
Wheats, The occurrence of loose smut resistance in 42, 28 and 14 chromosome 828

Zinc treatments, Response of little cherry-infected cherry trees to 517
